[REDACTED]

Dear [REDACTED]

The City of Grenada would like to extend our sincere gratitude to you and [REDACTED] for your presentation at our July 11th Council meeting, regarding occupying our facility at 823 Air Industrial Park Rd. We have had tremendous respect for [REDACTED] and the impact it has had on the City [REDACTED] the surrounding area for years. To consider establishing a portion of your operation in the City of Grenada is an honor that we are grateful for and eager to work toward accommodating!

In your presentation and in the subsequent emails sent prior to the meeting addressed to me, the Councilmen and others, it was indicated that we would be working through Matthew Harrison, as [REDACTED] representative. As was a matter of discussion with you in the meeting, we have explored several potential opportunities to establish a working relationship with Matthew. From these explorations, we have been unable to establish the trust necessary to have a successful relationship with him.

As I stated, we are grateful for the opportunity to work with [REDACTED] to move forward with developing a sustaining relationship with you; however, we cannot do so if we have to work through Mr. Harrison. I hope that you are able to continue moving forward with your plans to locate in the City of Grenada with this disclosure being considered. Please reach out to me if you have any questions or concerns you would like to address.

Thank you again for considering Grenada for such an awesome opportunity. I look forward to hearing from you! We wish you continued success in this and all future endeavors.

Warm regards,

  
Stanford Amos,

City Manager, Grenada, MS
